

# Cloud ERP Construction Software with Accounting for Home Builders

## Build Strong with BRIX

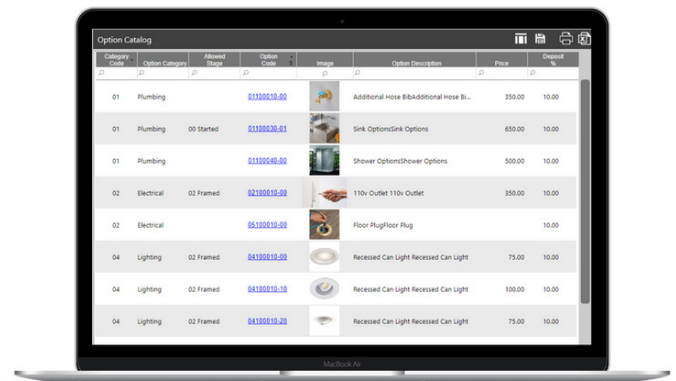

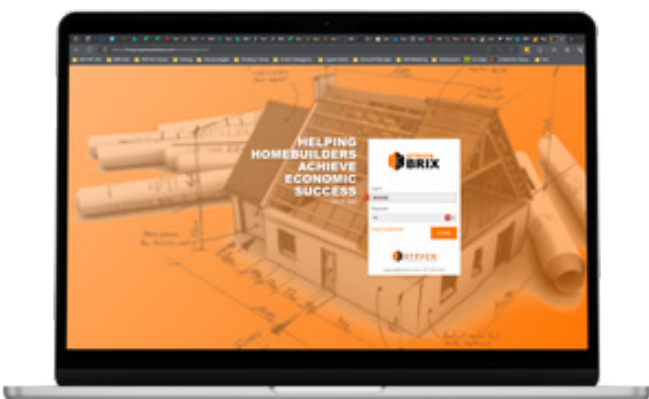

Hyphen BRIX is an all-in-one cloud-based ERP solution for Home Builders. Maintain and track all data from Leads to Contracts through Purchasing, Accounts Payable, Job Cost and Financial Reports. Gain real-time visibility throughout the building process to ensure profit margins remain intact via easy access to data and a magnitude of reporting options. Improve communication, collaboration and productivity to build homes efficiently, sell them quickly and grow your business in a competitive industry.

## Increase Purchasing Control and Job Cost Transparency

BRIX can budget and track every cost related to your projects. Maintain vendor pricing from lump-sum bids to detailed item cost and takeoff. Budget all costs from material and labor, to lot costs and sales commissions. Produce Purchase Orders, identify budget variances and protect margins using automated sales price tools, cost at completion analysis and cost comparison reports.

## Gain Benefits of SaaS and AWS Cloud Services

Reduce costs and modernize by moving to the cloud. Alleviate the overhead of maintaining on-premise servers and dedicated staff. Enjoy peace of mind with reduced downtime, redundant data, scalability and increased security through Amazon Web Services.

## Enhance the Buying Experience with BRIX Sales

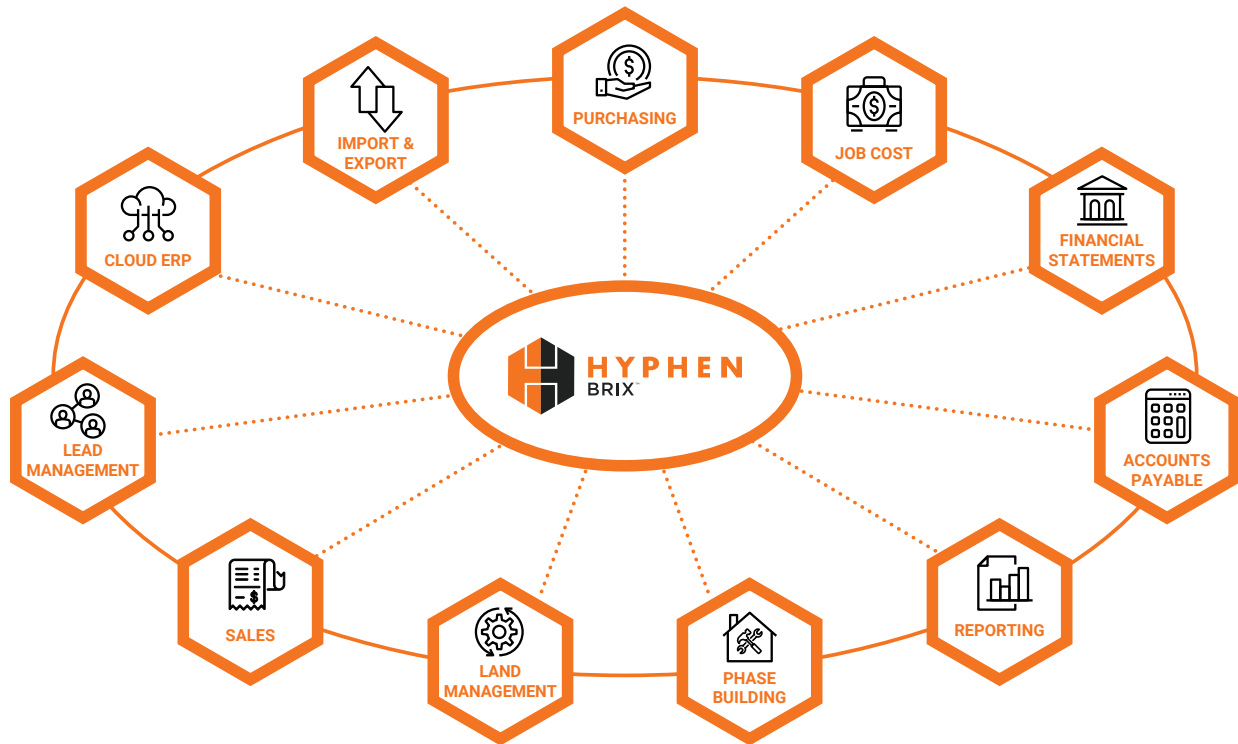

From the inception of a lead, cater to their home buying needs and interests. Show available lots on an interactive digital plot map, review available plans and options then automatically generate a selection sheet with images and attributes.

## Master General Ledger and Accounts Payable Tasks

Consolidate ledgers and take control of accounts with financial statement capabilities. Through BRIX, automatically calculate accruals and interest, produce 1099's and create custom financial reports without requiring an additional accounting software. Gain efficiencies and prevent typos using the AutoPay PO feature.

## No Longer Just a Desktop Application

We are thrilled to announce the launch of BRIX 3.0, a ground breaking cloud-based web application designed to transform the residential Home Builder industry. BRIX 3.0 is built upon the foundation of an industry-tested desktop application enhancing efficiency, accessibility and security. BRIX 3.0 is more than just a software upgrade; it's a transformation in how residential Home Builders operate and analyze data. With its intuitive interface, BRIX 3.0 empowers businesses to maximize efficiencies and take their operations to new heights.

## Hyphen BRIX Highlights

- ✓ Manage vendors and subcontractors
- ✓ Import and export data with ease
- ✓ Real-time communication with BuildPro, SupplyPro, Wallet, Hyphen CRM and Hyphen HomeSight
