

Orders + Field Management

SupplyPro GM: The Next Generation of SupplyPro

AT A GLANCE

- SupplyPro Orders Ready to Schedule
- Manage Jobs from Customers not using BuildPro
- Scheduling with Dispatch and Route Planning
- Field App with Forms and Site Photos
- Track EPO's and Completion Processing with Billing

With over 17,500 Suppliers and Contractors collaborating with over 750+ Builders across U.S. and Canada, Hyphen Solutions' Supplier platform continues to be the digital backbone of residential construction in North America.

Welcome to the new all-in-one SupplyPro interface with additional features to manage your jobs and ever-changing scopes and schedules. Automate your workflow with real-time communication between office, field and Builder.

EMPOWER YOUR TEAM WITH EASE AND SIMPLICITY

Imagine starting your day in a simple interface where you can drag and drop your new orders and tasks to organize and schedule your SupplyPro orders and instantly dispatch work and instructions to your field team. You can then sit back and monitor progress in the field with continuous status updates and field reports with site photos. Welcome to SupplyPro GM!

IT'S SIMPLE! CHANGE YOUR BROWSER FAVORITE AND ELIMINATE DATA ENTRY

Instead of logging into SupplyPro, log in to SupplyPro GM. The SupplyPro GM interface can be activated in a day and all you have to do is change your browser favorite. You will see all the same jobs and orders you are used to with the addition of new features to schedule, manage and track orders, EPO's and tasks from start to completion.

It's a small change that will result in tremendous savings.
