

# BidConnect Module

Cutting-Edge Bid Management Software  
for Residential Builders

## Find the Best Bid

Integration with BuildPro and SupplyPro provides Builders, Suppliers, Contractors and Trades with convenient 24/7 access to all the required elements for bidding and awarding projects. BidConnect makes it simple to manage sent and received project bids—anytime and anywhere—in a matter of seconds. Since all bidding materials are accessible digitally in one place, users can add and communicate project plans, scope, specifications and regulations.

## Streamline the Process

In minutes, users can select and invite appropriate suppliers and contractors for jobs, enhancing efficiency in simultaneous bids by sorting via various criteria. BidConnect allows side-by-side bid evaluation for optimal quality and profit protection, integrates with BuildPro and SupplyPro for seamless project management, and its online nature ensures immediate communication, preventing delay-causing changes.
