Chameleon Power	Homeowner Portal	BidConnect	BuilderGM (with Hyphen Wallet)	SupplyPro (with Hyphen Wallet)	Renditions

---

BRIX is an all-in-one cloud-based ERP solution for Home Builders. Maintain and track all data from leads, contracts, purchasing, accounts payable, job cost, and financial reports.
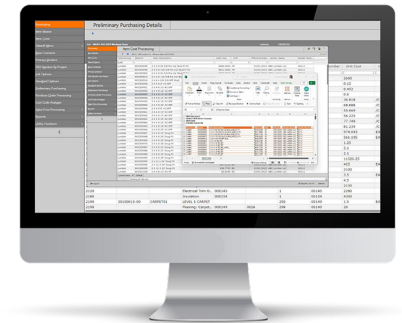

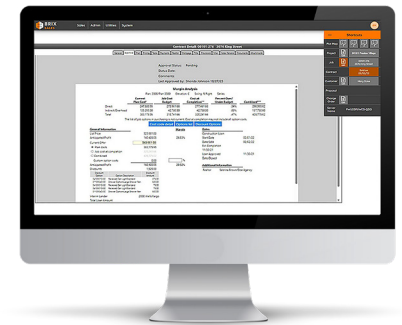

Gain real-time visibility throughout the building process to ensure profit margins remain intact via easy access to data and a magnitude of reporting options. Improve communication, collaboration and productivity to build homes efficiently, sell them quickly and grow your business in a competitive industry.

Increase Purchasing Control + Job Cost Transparency

BRIX can budget and track every cost related to your projects. Maintain vendor pricing from lump-sum bids to detailed item cost and takeoff. Budget all costs from material and labor, to lot costs and sales commissions. Produce purchase orders, identify budget variances and protect margins using automated sales price tools, cost at completion analysis and cost comparison reports.

Gain Benefits of SaaS + AWS Cloud Services

Reduce costs and modernize by moving to the cloud. Alleviate the overhead of maintaining on-premise servers and dedicated staff. Enjoy peace of mind with reduced downtime, redundant data, scalability and increased security through Amazon Web Services.
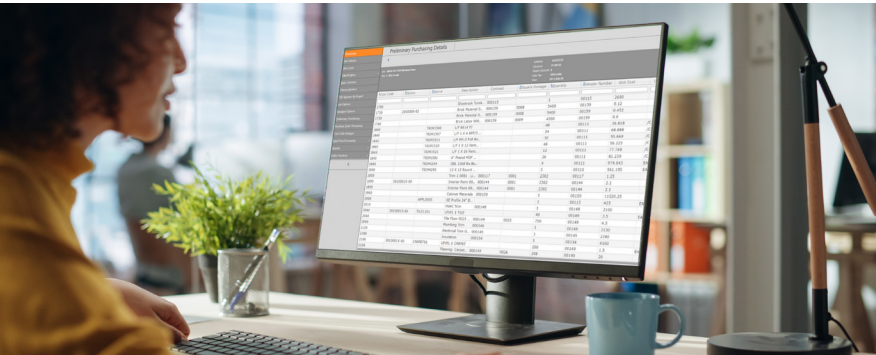

Enhance the Buying Experience with BRIX Sales

From the inception of a lead, cater to their home buying needs and interests. Show available lots on an interactive digital plot map, review available plans and options then automatically generate a selection sheet with images and attributes.

Master General Ledger + Accounts Payable Tasks

Consolidate ledgers and take control of accounts with financial statement capabilities. Through BRIX, automatically calculate accruals and interest, produce 1099's and create custom financial reports without requiring an additional accounting software. Gain efficiencies and prevent typos using the AutoPay PO feature.

POWER UP

Data Visualization with informXL: This enhanced collaboration seamlessly integrates informXL's powerful analytics capabilities with BRIX, delivering unmatched efficiency and streamlined data management for Home Builders.

Integrated Payment Automation with Hyphen Wallet: Seamlessly manage Builder payments and streamline financial transactions with ease. Hyphen Wallet automates Accounts Payable leveraging Hyphen's native data and the supply chain ecosystem.

WHAT'S NEW WITH BRIX

No Longer Just a Desktop Application

We're excited to launch BRIX 3.0, a groundbreaking cloud-based web application designed to transform residential home building. Built on a trusted desktop foundation, BRIX 3.0 enhances efficiency, accessibility, and security, empowering Builders to optimize operations and elevate performance.
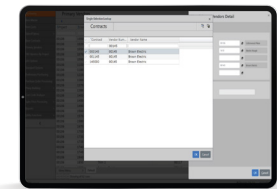

Sales Price Control

This feature in BRIX automates pricing calculations for plans and options, ensuring real-time accuracy in the sales module. Instantly calculate costs for desired plans and options, and apply a sales margin to determine the optimal sales price.

Automated Lien Process – Say Goodbye to Holding Checks Until Lien Waivers Are Signed!

With BRIX, Hyphen Wallet, BuildPro, and SupplyPro, you can fully automate your lien workflow— ensuring faster, more efficient payments while maintaining compliance in a new or existing change order and allowing edits to the option.

✓ Manage vendors and subcontractors

✓ Import and export data with ease

✓ Real-time communication with BuildPro, SupplyPro, Hyphen Wallet and Hyphen CRM

✓ Automatically create job option budgets and mass update PO cost when prices change
