REAL-TIME COMMUNICATION

Hyphen Integrations

SupplyPro GM shares data with the following products in the Hyphen software suite.

Introducing SupplyPro GM, the new benchmark in construction supply chain and field management. SupplyPro GM extends beyond simple order handling from Builders, offering a comprehensive suite for managing your entire business. With intuitive project and field management tools, SupplyPro GM simplifies your operations, allowing you to easily track and manage orders, schedule tasks, and automate payments.

Optimize Your Workflow with Smart Automation

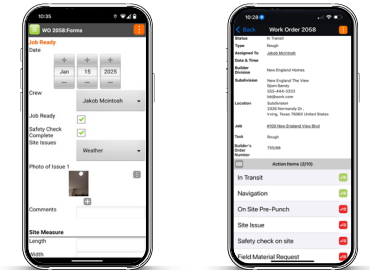

The platform's straightforward interface, coupled with smart automation and a customizable workflow field app, ensures that your operations are both efficient and adaptable. Embrace the future of construction supply chain and field management with a system that supports your growth and enhances operational control -- all accessible from your desktop and mobile device.

Accounting Integration

To eliminate time consuming data entry and reduce the risk of errors, SupplyPro GM offers integration with these accounting systems widely used in residential construction:

- QuickBooks Online
- QuickBooks Desktop
- Sage 300 Construction and Real Estate

Field App

The SupplyPro GM Field App for iOS and Android is built for simplicity and flexibility. Select the features you need, customize terminology, and create tailored entry forms to ensure a seamless rollout with a familiar user experience. Features include:

- ✓ Field scheduling + status updates
- ✓ Custom forms
- ✓ Site photos
- ✓ Approval with digital signature

SUPPLYPRO GM HIGHLIGHTS

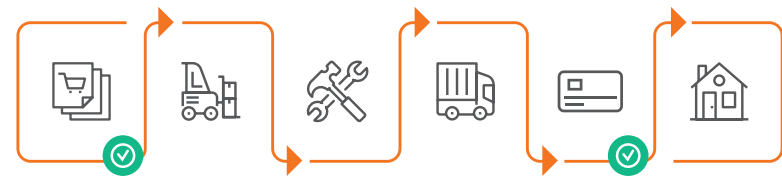

- ✓ Builder orders ready to schedule
- ✓ Manage jobs from customers not using BuildPro
- ✓ Scheduling with dispatch + route planning
